Opis produktu

SAMSUNG LS24C366EAUXEN - 24" - 1920 x 1080 (Full HD) - VA-paneel

- Thanks to FullHD (960pt X 540pt) resolution this monitor will be perfectly suitable for enjoying BlueRay quality films in the full screen mode.
- The compatibility with the modern graphics cards and video players will be ensured by HDMI input.
- DisplayPort port ensures the receipt of a higher quality picture from the computer graphics card supporting this technology.
- The port DVI ensures the compatibility with the classic video cards equipped with this port.
- The port D-SUB supports graphics cards with the preceding generation analogous VGA plug-in and the comparatively newer generation DVI-I standard using a transition DVI-I -> D-Sub.
- VA panel provides high colour compatibility parameters and improved viewing angle to this monitor.
- 4ms the response time is suitable for games and dynamic films.
